Bhilai, Chhattisgarh | kesharsahu3085@gmail.com | +91 8224824953 | LinkedIn: KESHAR SAHU | GitHub: keshar3085

Career Objective

B.Tech CSE (Data Science) student skilled in Python, SQL, data analysis, machine learning, and full-stack development. Hands-on experience through internships and projects in cybersecurity and data visualization. Track Winner at IIIT Naya Raipur hackathon, with a strong interest in building practical, data-driven solutions.

Education

Shri Shankaracharya Technical Campus (SSTC) B.Tech in Computer Science and Engineering (Data Science)	Bhilai, Chhattisgarh 2023–2027
Delhi Public School 12th, CBSE(PCM (CS)) — 68.00%	Bhilai, Chhattisgarh 2022–2023
Delhi Public School 10th, CBSE — 85.00%	Bhilai, Chhattisgarh 2020–2021

Internships & Training

Jyesta Corporate Entity <i>Full Stack Web Development Intern</i>	Remote Jun 2025–Aug 2025
--	-----------------------------

- Completed a 2-month internship with hands-on experience in frontend and backend development.
- Earned NSDC-validated Training & Internship Certification.

Bhilai Steel Plant (SAIL) – HRDP <i>Project-Based Vocational Trainee</i>	Bhilai, Chhattisgarh Aug 2025
--	----------------------------------

- Developed a Streamlit-based SSH Log Analysis Dashboard to detect suspicious login behavior and visualize cybersecurity insights.
- Built data processing pipelines using Python, Pandas, NumPy, and Plotly for log analysis and threat detection.

Lenovo LEAP – NextGen Scholar Program <i>Artificial Intelligence Learner</i>	Online 2025
--	----------------

- Completed an Artificial Intelligence learning program through the Lenovo LEAP NextGen Scholar Program.
- Achieved **Grade A** in the program.

Projects

Cybersail Log Analysis Dashboard Live Demo: Cybersail Dashboard <i>Python, MongoDB, Streamlit, Pandas, NumPy, Plotly</i>	2025
---	------

- Built a cybersecurity dashboard to analyze SSH authentication logs, identify brute-force attempts, and visualize suspicious activity.
- Integrated MongoDB for log storage and interactive Plotly visualizations for cybersecurity monitoring.

Smart Inventory Management System – IIIT Naya Raipur Hackathon <i>Python, Web Development, Database</i>	2025
---	------

- Developed a smart inventory management solution during a hackathon at IIIT Naya Raipur to streamline inventory tracking and management.
- Designed features for efficient stock monitoring, inventory organization, and improved accessibility of inventory information.

Satellite Image Super Resolution <i>Python, GAN, SRGAN, Deep Learning</i>	2024
---	------

- Developed an SRGAN-based deep learning model to enhance low-resolution satellite images into high-resolution outputs.

Technical Skills

Languages: Python, JavaScript, SQL
Web: HTML, CSS, JavaScript
Libraries/Frameworks: Streamlit, Pandas, NumPy, Plotly
Databases: MongoDB, SQL
Tools: Git, GitHub, VS Code
Domains: Data Analysis, Artificial Intelligence and Machine Learning, Data Visualization, Full-Stack Development

Certifications & Achievements

Vocational Training Certificate – Bhilai Steel Plant (SAIL) Human Resources Development Department, SAIL — Regn. No.: P.25/5541 <i>Project: Cybersail Log Analysis Dashboard — Performance: Excellent</i>	Aug 2025
IIIT Naya Raipur Hackathon – Track Winner Developed a Smart Inventory Management System and secured the Track Winner position.	March 2025
